Mayors Welcome

Welcome to the Richmond Valley. We are delighted you have chosen to visit our beautiful region.

There are limitless opportunities for exploring our region's natural wonders.

For a self-drive adventure, follow our beautiful Richmond River from our pristine coastline to the hinterland by passing through Broadwater, Woodburn, Coraki, and Casino, before venturing further into the wonderful rainforests of the Border Ranges.

If you want a water-based adventure, it would be hard to pass up the chance to paddle up the Evans River at the northern tip of Bundjalung National Park. Jerusalem Creek also offers excellent opportunities for paddling. Go at dawn or dusk to increase your chances of spotting animals and birds.

Or for something totally different, why not experience the thrill of a live cattle sale, held every Wednesday at the Casino saleyards?

Whether it's a drive down our picturesque country roads, a family stroll through World Heritage-listed national parks, a day at the beach, or at one of our community festivals, fairs or events, we hope your experience will be memorable and will encourage you to come back and visit us again.

Enjoy your stay!

History

The Richmond Valley

The traditional custodians of the land surrounding the Richmond River are the Aboriginal people of the Githabul. One of the annual rituals of the Githabul people was the movement from the mountain ranges to the coast during the winter months, when the mullet were plentiful.

The Githabul Nation encompasses some of Australia's most scenic country and extends across a number of national parks and state forest reserves in north-eastern NSW, including some world heritage-listed areas.

The Bundjalung Nation has become a general term for the whole language area stretching the far north east coast of NSW and the southern eastern coast of Queensland. It extends from Grafton on the Clarence River in the south to the Logan River in the north and inland as far as the Great Dividing Range at Tenterfield and Warwick.

At the time of first European contact in the 1800s there were up to 20 dialects in the Bundjalung Nation including: Wahlubal; Yugambeh; Birrihn; Bandjalang; Wudjebal; Wiyabal; Wuhyabal; Minyangbal; Ngaraakwal; Ngarrahngbal; Nyangbal; Barryugil; Gidhabal; Galibal; and Githabul.

The Richmond Valley area has experienced substantial changes. During the 19th Century the driving force in production and employment, throughout the area, was primary production. During the 20th Century, the area effectively divided into two: a relatively urbanised coastal strip, and an inland zone which retains more of the area's rural origins.

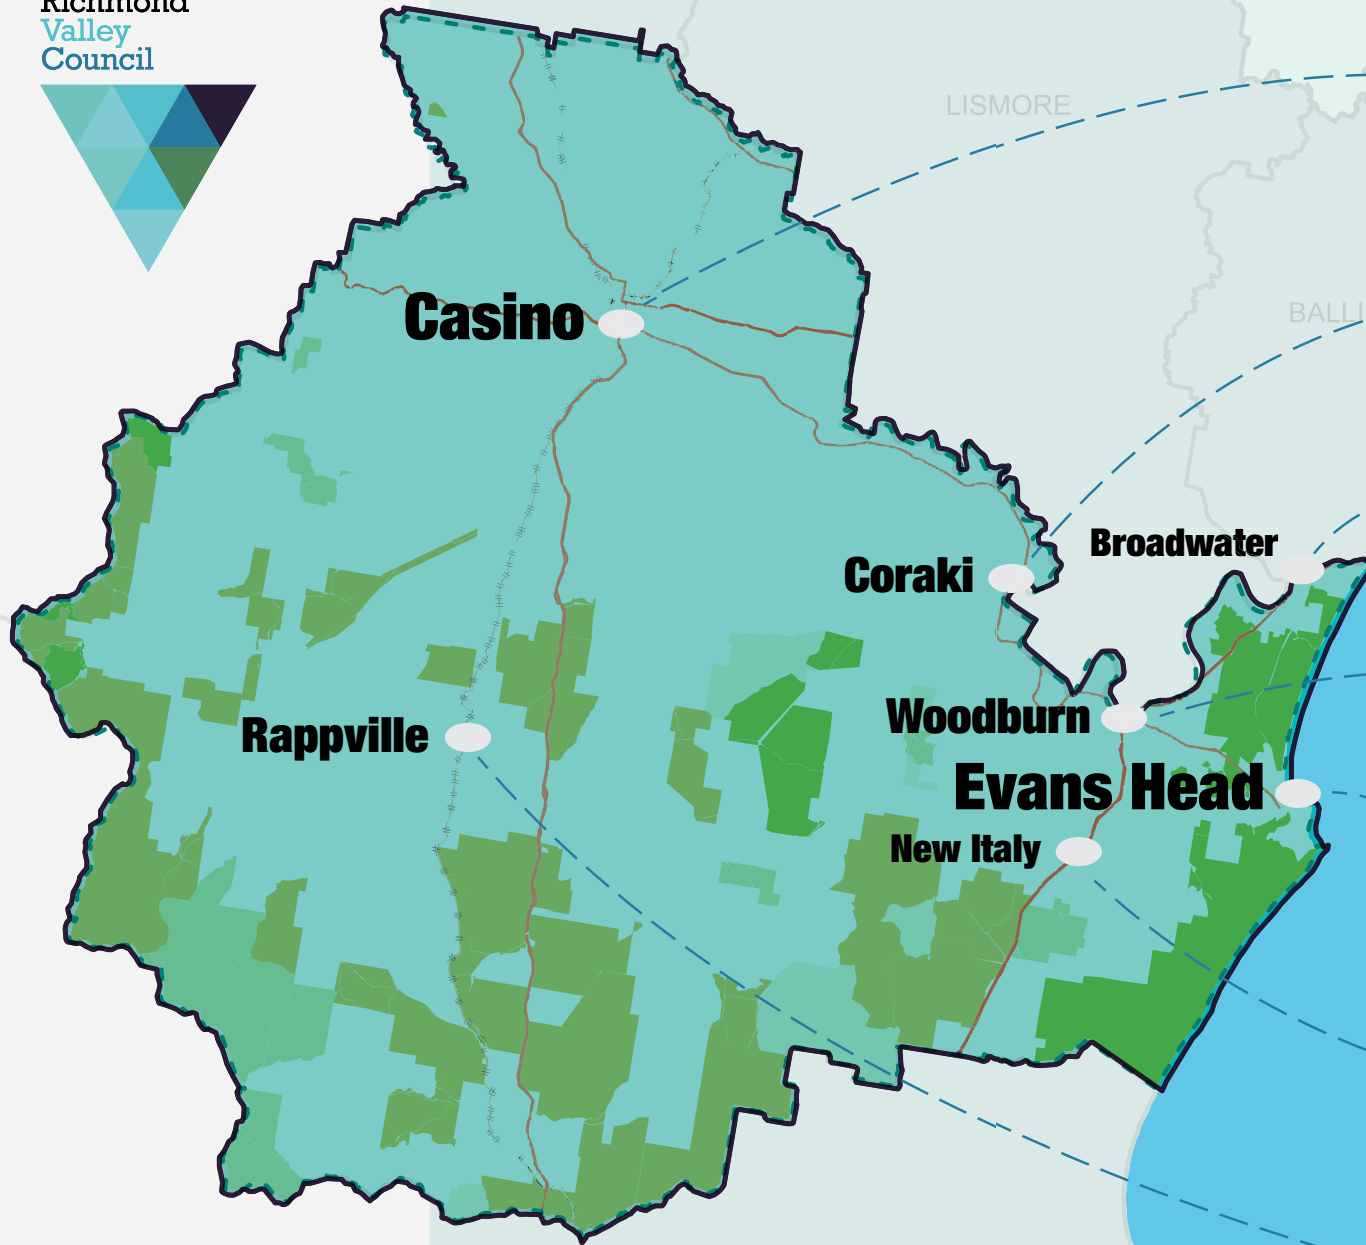

Commercial fishing had emerged during the latter decades of the 19th Century. During the late 1940s, NSW fishing people formed co-operatives. In the Richmond Valley area a co-operative was formed at Evans Head and is still operational today.

The Richmond River is named after the fifth Duke of Richmond. The river was a major port from the 1840s until well into the 20th Century. Soon after the first white settlers arrived they discovered the abundant supply of Australian Red Cedar in the Richmond Valley and immediately began logging. The river was vital in the transportation of this resource.

With the decline of shipping as a transport mode, owing to better roads and rail, and the closing of the North Coast Steam Navigation Company (the major shipping firm of the area) in 1954, the river became less important as a port.

Historic Casino 1840

Casino's first European settlement was in 1840 when cattlemen George Stapleton and Henry Clay crossed the Richmond River at the Crossing Place a rocky bottom section of the river, which is now the river end of West Street. The area is now marked by a stone monument.

The Casino and District Historical Society Inc, formed in 1965 had the monument erected in 1967 to commemorate this historical event.

Clay and Stapleton took up 30,000 acres of land stretching 10 miles down the river from the crossing place and north of the river and named their cattle run Cassino.

Within 10 years there were 20 other squatting runs listed in the Government Gazette (1849) in the Richmond Valley region.

In 1853-54 the first public accommodation, inn and store were built at the Crossing Place. The Durham Ox Inn became the central meeting place for people in the district, a Court of Petty Session and Post Office. This was the only Inn between Grafton and Ipswich.

The town of Casino was surveyed and proclaimed in 1855.

Some historic buildings still operating are the Post Office (built in 1879) and Court House (built in 1881).

For further information visit the Casino Folk Museum situated opposite the Police Station at 31B Walker Street. The museum has historical items on display relating to the districts early settlement and has more than 10,000 items listed on its data base with the majority of these on display.

The museum can be visited on Sunday, Monday, Wednesday and Friday from 10am to 2pm or group visits by appointment.

Sunshine and Sugar

The Richmond Valley is one of the most fertile and productive sugar cane regions in Australia.

For almost 150 years, generations of local farming families have built an industry that provides jobs and business opportunities that benefit the whole of the Richmond Valley community.

The NSW Sugar Industry is considered the southern gateway of Australia's sugar industry and is the origin of sugar cane growing in Australia. Sugar cane production in the Richmond, Clarence and Tweed Valley's dates back to the 1860's and is one of the oldest and largest employers in the Northern Rivers.

Today, Sunshine Sugar is the only 100% Australian owned manufacturer of locally grown, certified sustainable, raw and refined sugar products. With a turnover in excess of \$200m, Sunshine Sugar employs up to 1,000 direct and indirect staff and has a grower base of more than 500 farming families. The industry owns and operates sugar mills at Broadwater, Condong and Ilarwood and a refinery co-located at the Ilarwood site.

Sunshine Sugar manufactures private label sugar for some of Australia's major retailers as well as its own Sunshine Sugar label that is sold through independent grocery stores. Refined and raw sugar is sold to over 300 different customers across all types of food and beverage manufacturing.

Sunshine Sugar is proud to have achieved status as 'Bonsuore Certified Sustainable' under the international Bonsuore Standard which promotes measurable standards in the environmental and social impacts of sugarcane production and primary processing. The NSW sugar industry is committed to maintaining economic and environmental viability for its growers and the local communities of the Northern Rivers region.

For more information on the NSW Sugar Industry visit www.sunshinesugar.com.au

Woodburn & New Italy

Well-known by regular travellers of the Pacific Highway, Woodburn is a delightful and peaceful town on the banks of the Richmond River. While few people know the story of its exciting past, today it is known as 'the travellers rest', a wonderful place to stop, stretch and relax.

The river has always been an important part of life in Woodburn. In early days large vessels, small craft and ferries, which for 100 years were the only means of traversing the region, were built here. When the roads were merely tracks, the river was the highway, alive with sailing ships, ocean steamers and riverboats. Today, the river is an excellent focal point for recreational water sport activities.

New Italy is a small community located just 15km south of Woodburn on the Pacific Highway. Settlement was established in 1882 when Italian immigrants from the region of Veneto in northern Italy took up a conditional purchase farm of 40 acres. By the mid-1880s, about 50 holdings of an aggregate area of more than 3,000 acres were under occupation, and the Italian population of New Italy has increased to 250. It was a small farming community growing fruits and vegetables including grape vines. In the late 1950s the regional significance of the settlement began to be recognised and the Bicentennial Museum was opened in 1989.

Accommodation

Woodburn & New Italy are located on the Pacific Highway, making for an easy and accessible stopover point when travelling along the east coast. Overnight accommodation is available at the Rod n Reel Hotel Motel, situated right in the heart of town overlooking the mighty Richmond River.

Rappville

About 20 kilometres south of Casino a turnoff leads you through pleasant farming land to the village of Rappville, a former bustling timber and beef village which continues to have an involvement with those industries.

Rappville is a quiet village with the most prominent building being the Commercial Hotel, or as it is most commonly known, the Rappville Pub. This two-storey timber building was completed in 1911 to serve the thriving timber and railway township. The pub is a nice stopover for those wanting to divert from the Summerland Way and experience some real country hospitality.

Attractions

Timber is at the heart of delightful Rappville, nesting at the foot of the beautiful hinterland mountains.

DTM Timber is located at 95 Carwong Road and produces a range of sawn timber for building applications and landscaping, seasoned F27 hardwood for high strength applications, as well as kiln dried decorative flooring and decking. Small groups are welcome to come and view milling at its finest with prior arrangement. Please call 0478 139 603.

From Rappville, you can travel west along Wyan Road to the T-junction of historic Tenterfield Road before turning south to rejoin the Summerland Way north of Whiporie close to the Olive Family cemetery.

Activities

The Richmond Valley

What makes the Richmond Valley region so special is the unique and diverse range of experiences and activities on offer. In under an hour you can go from coast to hinterland and farmlands in between.

If you prefer the classics then the **Supa Cheap Auto Spectacular** has hundreds of vehicles on display which have been restored and modified. Mixed with trade stalls, markets, raffles and kids activities and lucky gate prizes, it makes for a great family day out.

Kick off the day the right way at the **Greater Bank Casino Fun Run** held in September. As part of the Run NSW Series, the run takes you from the iconic Queen Elizabeth Park, over the picturesque Richmond River, through our Art Deco town centre and past grazing cattle shaded by Eucalyptus trees. With 10km, 5km and 2km distances, you can run, jog or walk.

Need a great youth event? **Crankfest** has you covered. A celebration of youth, culture and arts, Crankfest is held at Evans Head and brings to life everything our youth love. Join in the skating and surfing competitions, enjoy amusement rides, sit back, relax and enjoy the music from the Good Vibes and Live Wire stages or stroll through the markets and food stalls.

Woodburn comes alive in October for the annual **Woodburn Riverside Festival**. The program screams fun with live music, community performances, art, market stalls, raft races, biathlon, amusement rides and firework display.

The **Northern Rivers Craft Beer & Cider Festival** began in November 2016 and is now permanently book marked as the place to be for connoisseurs of craft beers and fine ciders. Held outdoors at the Clydesdale Hotel and Steakbarn, the event provides a relaxed environment to unwind, tantalise tastebuds and listen to great local artists.

With multiple activities running consistently throughout the year, make sure you check out the **markets** in Casino, Woodburn and Evans Head as well as the **Casino Racing Club** schedule.

Cultural Charm

The Richmond Valley has a rich and diverse cultural history balanced with an enjoyment for arts, music and dance.

Immerse yourself in a celebration of all things Italian at **Carnivale Italiano**. The descendants of New Italy celebrate the anniversary of 50 Italian families who immigrated to Australia in April 1881 with food, wine and music. Join in the dancing,

browse the museum and savour the flavour that Italians bring to our nation.

The Northern Rivers is a hub for creative individuals and this echoes clearly among the art events occurring throughout the year. The quality of work from talented locals at the **Casino Beef Week Art Exhibition**, **Bentley Art Prize** and **Coraki Art Prize** may

see you acquire another artwork for your collection.

If you enjoy a variety music then make your way out to Windara Function and Conference Centre. Windara has you covered offering three events with different genres throughout the year. Plan a day trip to the **Music Muster** in April, **Jazz and Shiraz** day in July or the **Rock and Roll** event later in the year.

The iconic performance space at the **Casino Civic Hall** was established in 1932 and it has retained the Art Deco interior from when it was first built. Opera performances are held in the hall annually with all shows selling out. Watch this space as our performance program grows and Richmond Valley plays host to regional and national tours.

A highlight in our Valley is the celebration of our first peoples of Australia at **NAIDOC Week** events held in Evans Head, Coraki and Casino. Join in the feast, sporting activities, music and dance in July and embrace the history and traditions which make the Bundjalung nation so special.

Casino Beef Week

Claiming the title of the Beef Capital of Australia, Casino becomes a buzz in May as **Casino Beef Week** begins with the annual celebration of our leading agricultural industry – beef. With more than 100 activities on offer from fashion parades, horse racing, a rodeo, art, music and dance, Casino Beef Week is the electricity which powers the town into a vibing centre of hustle and bustle.

It all begins with the Opening Ball and crowning of the Casino Beef Week Queen. Guests' taste buds are ignited with a taste of Casino beef slow cooked to perfection. The celebration continues on the dance floor till the early hours of the morning.

There's no time for sleep though, it's an early start as Casino Beef Week brings the country to the coast with the Beef Meets Reef event at Evans Head. Markets, performances and a street parade, with beach village feel, make the day popular for day trippers.

Join in with thousands of others on the Friday to line up for a free snag at the Casino Beef Week Breakfast with the Butchers. Barbeques line the main street of Casino and buskers fill the air with music while shouts are heard from the keen Cow

Pat Lotto betters, and laughter at the amateur efforts from the Cow Milking Competition.

It's then a quick change into race wear for the Casino Beef Week Cup and a night out at the many locations with country music and popular bands.

The festival hits its stride on Beef Week Saturday. Around 20,000 people enjoy 100 markets, live entertainment, whip cracking, jackaroo and jillaroo competitions, amusement rides and the iconic street parade. However, nothing

beats the sight of 150 cattle filling the CBD for the cattle competition and auction.

Casino Beef week will allow you to savour the taste of the country for the rest of your journey and provide you with memories to last a lifetime.

Great Eastern Fly In

Where the sky meets the sea.

The Great Eastern Fly-In is a unique Australian aviation event. Pilots, their families and friends fly-in from all over Australia to enjoy a great summer holiday with a difference.

With more than 20 years of carving through the sky, it is still one of the most intimate air shows with spectators able to get up close to the huge display of planes, helicopters, girocopters, radio controlled aeroplanes and much more.

The Great Eastern Fly-In has an impressive display of warbirds and historic aircraft with adventure flights offered throughout the day. It is the perfect opportunity to explore the Evans Head Memorial Aerodrome and Aviation Museum which displays a MiG15, F-111 and Canberra Bomber.

Held over two days, there is more than aviation to check out while you are there. Browse the local market stalls, view the classic car club displays, enjoy local foods, kids activities, talk with amateur radio operators, visit emergency services and model aeroplane displays.
