

THE MUSEUM

The Northern Rivers Military Museum at the Casino Drill Hall was first opened to the public on 27 September 2017. It tells the story of the region's military history by sharing the victories, tragedies, and sacrifices of those who served their country.

The heritage-listed Drill Hall was saved from auction after Richmond Valley Council purchased the hall and worked with RSL sub branches from Casino, Lismore and Kyogle and the 41st Infantry Battalion Association to transform it into a museum.

The museum acknowledges the families of the veterans, and embraces the community's enrichment from the cultural and educational diversity people brought to the region during their service and, in many cases, brought back when they returned.
